

Let's get messy! Muck is mega-marvellous and don't worry it can always be washed out!

Muck, Mess and Mixtures

We will be continuing to get messy and explore this exciting and fabulously fun topic.

GEOGRAPHY - We will explore different foods and the countries they come from.

SCIENCE - We will be investigating how different mixtures react when melted and mixed. We will also be making banana bread and flapjacks.

DESIGN - We will be following recipes and cooking, melting, sorting and tasting different foods.

COMPUTING - We will be word processing, writing up our recipes for our class recipe book..

FOREST SCHOOL - We will be having Forest School sessions every Thursday afternoon. Please make sure children have long sleeved tops, long trousers and a waterproof in school.

MUSIC - We will be explore singing games, creating some, looking at tempo & dynamics and the simple notation of rhythmic patterns.

RE - We will be learning about what happened after Easter, learning about Pentecost and the Assentation.

ENGLISH - We will be looking at and trying our hands at adapting Traditional Tales. We will also follow, create, collect and write up recipes for a school recipe book. We will also revisit the grammar and punctuation covered this year.

MATHS - This half term we will be getting to grips with learning time as well as exploring different ways of measuring liquids and solid foods. We will also be going over lots of the maths already covered this

PE - We will be having Tennis on Mondays and PE on Fridays so please ensure the children have PE kits in school on both of these days.

ART & DESIGN - We will be getting messy exploring different artist, materials and painting techniques. We will look at food related art by Carl Warner and Giuseppe Arcimboldo and design a cover for our recipe book.
